SUMMARY

Full-Stack Java Developer with **production deployment experience** building **Spring Boot REST APIs**, **real-time web applications**, and **database-driven platforms**. Proficient in **React.js**, **Spring Security**, **JWT**, **MySQL**, **PostgreSQL**, and **cloud deployment**. Delivered **1 production project** with real impact: **500–700 monthly visitors**, **70+ leads captured**. Strong in **Agile development**, **RBAC**, and writing **clean, scalable backend systems**.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL

Backend: Spring Boot, Spring Security, Spring AI, REST APIs, JWT, Node.js, Express.js, Socket.io

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Databases: MySQL, PostgreSQL

DevOps & Tools: Git, GitHub, Docker, Maven, Postman, IntelliJ IDEA

Cloud: Supabase, DigitalOcean, Cloudflare CDN, Cloudflare R2 Storage

EXPERIENCE

Full-Stack Developer Intern

Jan 2026 – Present

Patronage Realtor – patronagerealtor.in

Pune, Maharashtra (On-Site)

- A **buyer-facing real estate platform** that replaces manual enquiries with a fully digital property discovery, financial planning, and lead capture experience for a Pune-based realty firm.
- Built and deployed the **full production platform** using **React.js** and **Supabase (PostgreSQL)**, handling **verified property listings**, **media management**, and **Google Maps API** location embedding – currently driving **500–700 monthly organic visitors** through **on-page SEO optimization**.
- Designed and built **4 bank-grade financial calculators**: **Smart EMI** (**99.9% accuracy** – simulates lump-sum prepayment, saves buyers up to **8Y 11M** repayment time and **43L interest**), **Rent vs. Buy** (identifies exact break-even year), **Loan Eligibility** (applies FOIR + CIBIL scoring rules), and **Ownership Cost** (reveals **15.95% hidden cost overhead** beyond base price).
- Built a **public lead capture system** with unauthenticated form submissions stored in **Supabase**, successfully capturing **70+ real buyer leads** since launch.
- Implemented **client-side WebP image compression**, reducing average property image size **from 2MB to under 200KB (10x reduction)**, cutting **storage costs** and significantly improving **page load speed**.

Anchoring Head

Jun 2024 – Present

OneVerse Club, JSPM's RSCOE

Pune, Maharashtra

- Led **stage and event operations** for **500+ attendee college events**, demonstrating **executive-level communication** and **on-stage leadership** across technical fests, seminars, and cultural programs.
- Coordinated **cross-functional teams** of faculty, students, and external guests – managing **competing priorities**, **live event timelines**, and **stakeholder expectations** simultaneously, directly mirroring **Agile team dynamics**.

PROJECTS

LendOS | *Spring Boot, Spring Security, JWT, PostgreSQL, REST APIs*

| github.com/ChaudhariSanket12/lendos

2026

- An **open-source multi-tenant lending platform** for small NBFCs – replaces error-prone spreadsheet-based loan tracking with **automated lifecycle management**, **double-entry accounting**, and **AI-powered KYC verification**.
- Built **complete 7-state loan lifecycle** (Applied → Disbursed → Closed/Defaulted) with **RBAC** for Admin, Credit Officer, and Auditor roles using **Spring Security + JWT** (**15-min access token** + **7-day refresh token** with HS512 signing).
- Designed a **double-entry append-only ledger** where **account balances are derived from live SQL queries** – no stored values, eliminating **data consistency bugs**; tested with **500k ledger rows** with **indexed queries under 200ms**.
- Built **idempotent payment processing** using **client-generated UUID keys** and **@Transactional** atomicity; **load tested at 500 concurrent requests** – only one payment processes per UUID, **zero phantom payments** recorded across **45+ REST API endpoints**.

- A centralized cloud-based club management system that eliminated fragmented WhatsApp coordination and manual processes – now actively serving **50+ members**, **40+ events**, and **120+ participants** on a single structured platform.
- Architected and deployed a **production-grade full-stack platform** with **Spring Boot REST API** on **DigitalOcean**, **React.js** frontend delivered via **Cloudflare CDN** for fast global access, and all media assets stored and served through **Cloudflare R2** – ensuring **high availability** and **low-latency content delivery**.
- Implemented **4-role access control** (Admin, Faculty, Student, Guest) using **Spring Security + JWT (stateless authentication)** with a complete **OTP verification system** (2-min expiry, `ConcurrentHashMap` in-memory store) and **Resend API** powering transactional emails for **OTP delivery**, **password reset**, and **event notifications**.
- Built a **Dropbox-style file submission module** with **role-based upload permissions** and **version tracking**; designed a **PYQP academic repository** organized by subject, department, and semester; and developed a **multi-role event management system** supporting **team-level registrations** – managing **14+ club projects** end to end.

EDUCATION

JSPM Rajarshi Shahu College of Engineering

Master of Computer Applications (MCA) – CGPA: 8.28

KCE's College of Engineering and Management

Bachelor of Vocational – Industrial Automation & Mechatronics

Pune, Maharashtra

Aug 2024 – Jun 2026

Jalgaon

Jun 2020 – Jun 2023

CERTIFICATIONS & ACHIEVEMENTS

Java Spring Framework, Spring Boot & Spring AI – Udemy (Navin Reddy, Telusko) | Dec 2025 | **55 hrs**

Communication Skills for BPM Industry – Wadhvani Foundation

Event Host & Anchor – Annual College Fest 2025, JSPM RSCOE
